## COMPANY

Al Safwan Marine is a fast growing safety company in the field of Marine and Oil & Gas since 2011 serving Middle East customers. Our years of combined experience and expertise are the foundations for industry-leading services and products.

Al Safwan Marine explores opportunities in the world of safety by seeking and providing customer value propositions. We work closely with you to develop comprehensive maintenance plan that are all about safety, reliability and regulatory compliance.

We take pride to have qualified people, process and plant to deliver the right market demand. All our inspection and testing procedures are developed and controlled in compliance with the industry standards. This includes quality inspections, quality control, internal audits, staff training and competency assessments.
